

GRAIN

BESPOKE KITCHENS · HAND-BUILT IN BRITAIN

THE COLLECTION · SELECTED KITCHENS

GRAIN

The considered kitchen.

DESIGN CONCEPT · FICTIONAL STUDIO · AI-GENERATED IMAGERY

WALNUT & CALACATTA

THE STUDIO

Kitchens, made by *hand.*

GRAIN is a bespoke kitchen studio. Every kitchen is drawn for its room, built in our own workshop, and finished in materials chosen to age well — solid timber, honed stone, unlacquered brass.

Handleless or in-frame, dark or pale — the through-line is the craft, not a catalogue. No two are the same.

STATEMENT

NO. V · VIOLA

Calacatta Viola.

NO. 11 · FOREST

*Deep green, brass and
a range to gather round.*

Hand-painted in-frame cabinetry in a deep forest green, unlacquered brass throughout, a honed dark worktop and a freestanding range cooker at its heart. An English kitchen, built for a busy house.

FOREST

TRAVERTINE

NO. III · TRAVERTINE

Pale travertine, *quiet light.*

Bleached-oak handleless cabinetry and warm travertine, kept deliberately serene. A kitchen that steps back and lets the light and the materials do the talking.

BONE CLASSIC

NO. IV · BONE

A timeless classic.

NO. VI · THE GALLEY

Small footprint, *full intent.*

Proof that bespoke isn't only for big rooms. Warm smoked-oak, a slim marble run and clever full-height storage make a compact galley feel generous.

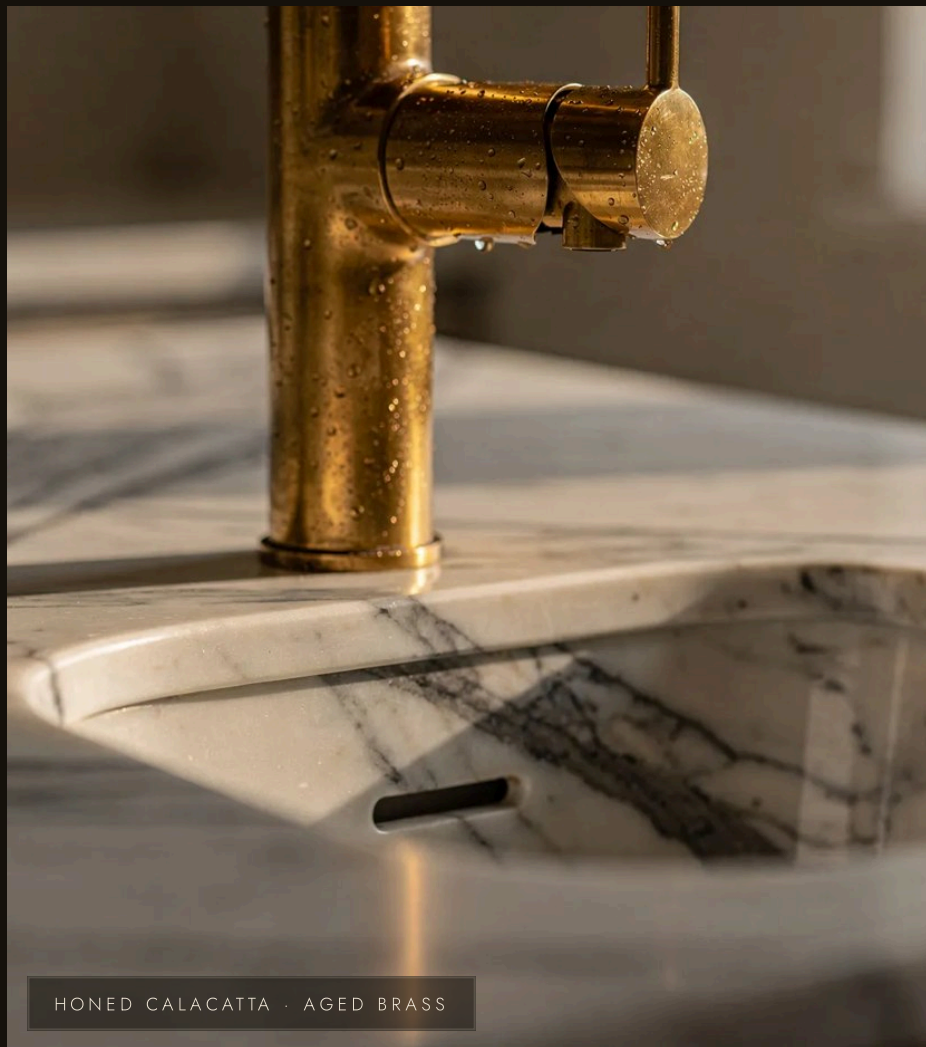

COMPACT GALLEY

THE CRAFT

It's in the parts you rarely see.

HAND-BUILT JOINERY

HONED CALACATTA · AGED BRASS

LARDER & PANTRY

THE CONSIDERED EXTRA

The pantry.

MATERIALS

Chosen to *age well*.

TIMBER

Solid & grain-matched

Walnut, smoked and bleached oak —
solid throughout, not veneered,
finished in oils that deepen with use.

STONE

Honed & book-matched

Calacatta, Carrara and travertine, cut
and matched by hand so the veining
runs true across island and splashback.

METAL

Unlacquered brass

Taps, rails and hardware in solid brass,
left to patina honestly rather than sealed
behind a coating.

THE WHOLE ROOM

Where the house gathers.

SIGNATURE

THE STUDIO

One studio, *end to end.*

From the first drawing to the final fitting, your kitchen stays with one team — designed, made in our workshop, and installed by the people who built it.

You deal with the makers, not a showroom.

G R A I N

A DESIGN CONCEPT BY AMS DESIGN

We build studios like this.

A considered site, a brochure and an interactive
lookbook — one package, one link.
